How do I access multiple Gmail accounts?

Tell Me

If you are responsible for managing multiple email accounts and the individual has already given you access, follow these steps for adding an account to your profile:

1. Log into your email account
2. In the top right, click on your name
3. From the drop-down screen, click Add account
4. Enter the log in information for the additional account and sign in
5. You should now see the new email account in a new tab/window in your browser
6. Repeat steps 2-4 for any desired accounts

Info

If you are responsible for a generic account, see this FAQ.
