How do I post a YouTube Video using Kaltura My Media?

Tell Me

Kaltura My Media provides faculty with the option to post YouTube videos which can then be embedded into Canvas items (Pages, Announcements, Discussion forums, etc.)

1. Log into Canvas
2. Access a course in which My Media is enabled

Canvas Course Navigation

Please view the Canvas How do I reorder and hide Course Navigation links? for help enabling My Media

3. Click the My Media link

4. Click the Add New drop-down button
5. Select YouTube
6. Navigate to the YouTube clip you would like to use. Copy the URL

![YouTube URL](https://www.youtube.com/watch?v=Z12rV0U4)

Travels to mining area

UNC Charlotte Astrobotics Competition

253 views

Note: Kaltura will cut off everything except the ending unique video identifier of the URL you pasted.

7. In My Media, paste the YouTube URL into the box provided and select “Preview”

YouTube

Video Page Link (or Content ID)

Preview Note: Only public YouTube videos are supported

YouTube URL

Note: Kaltura will cut off everything except the ending unique video identifier of the URL you pasted.
You will see how the YouTube video will appear in My Media.

Click on the video to see the details associated with the YouTube video.

Please fill out these details:

- **Name:** UNC Charlotte Astrobotics Competition

  UNC Charlotte's Astrobotics team is a group of multi-disciplinary engineering students who will be competing in the 2017 NASA Robotic Mining Competition at the Kennedy Space Center.

  Recently, NASA discovered large amounts of water in the form of ice and hydrated mineral known as basaltic regolith on Mars. NASA's main goal is to capture samples of the basaltic regolith and ice to be used as a potential resource for human life on Mars.

- **Tags:**

  - Private - Media page will be visible to the content owner only.
  - Published - Media page will be visible to individuals according to entitlements on published destinations
10. You will see that the **name** and **description** of the video that were used in YouTube have been placed here for your convenience. You can edit these accordingly. Click **Save**.

11. Your changes will be saved. Click **Go To My Media** to see the posted YouTube video.

12. Choose a Canvas item to add this YouTube video. For example go to Canvas Pages, and create a New Page.

13. Add a name and description in the Rich Content Editor of the new page.

14. Click the **Kaltura Media** icon.
15. The Embed Kaltura Media window will appear

16. Click Select > Large, next to the YouTube video you want inserted

17. The YouTube video will be placed in the Rich Content Editor
18. Scroll down and click **Save and Publish** to save the changes and make the page available to students.

**My Media Options**

Please note that YouTube videos do not have the same options available as media files uploaded to Kaltura. For example, you will not have the features for clipping and trimming. Machine and Human Closed Captions will not be able to be requested. You can add SRT files to the YouTube video. The YouTube video can be published to the Media Gallery.
