How do I update my password for my UNC Charlotte Google account on my Android device?

Tell Me

After changing your NinerNET password on the NinerNET website for password and account management:

1. The next time your phone attempts to sync your UNC Charlotte Google account, you should receive an Account Action Required notification. Click on the notification.

2. A Couldn’t sign in message will be shown, letting you know either an incorrect password was entered or your account has changed. Click Try again.

3. You will then be taken to the UNC Charlotte login screen, where you can enter your username and new password.
