Why do I need to upgrade my university Windows 10 computer to version 1803?

Tell Me

1. Instead of waiting for major version releases every several years, Microsoft is releasing new versions several times a year.
2. Version 1803 was released in April 2018 and had been tested by ITS against core university systems.
3. ITS is working to make this upgrade available in January 2019.
4. The update was released in addition to the monthly patches.
5. These smaller version upgrades are less disruptive than the former large operating system changes.
6. ITS plans to release version updates 1-2 times a year.
