Can instructors use Respondus Exam on a Mac computer?

Tell Me

1. A dedicated Macintosh version of Respondus is not available. It is only available for Windows-based operating system.

   1. There is a work-around that we cannot recommend for all faculty and staff, but, if you are a Macintosh aficionado and use either Parallels Desktop, VMware Fusion, or some virtual Windows environment you should be able to install and use Respondus on your Mac.
