Who is allowed to respond to Poll Everywhere questions?

Tell Me

1. There are two options for who can respond to a Poll Everywhere question: **Require participant registration** or **Do not identify**.
   1. After creating a poll question, you can select the desired option under the **Response Settings > Require participant registration / Do not identify**.
   2. **Require participant registration**: This option is selected by default and requires respondents to have a Poll Everywhere account. This option is best for polls used during a UNC Charlotte class.
   3. **Do not identify**: This option doesn't require a Poll Everywhere account and allows responses from those who don't have a Poll Everywhere account. This option should only be used for polling not related to a course. This could be conferences or other open sessions.

   - **Make responses anonymous**.
