How do I post a YouTube Video using Kaltura My Media?

Tell Me

Kaltura My Media provides faculty with the option to post YouTube videos which can then be embedded into Canvas items (Pages, Announcements, Discussion forums, etc.)

1. Login to Canvas
2. Access a course in which My Media is enabled

Canvas Course Navigation

Please view the Canvas How do I reorder and hide Course Navigation links? for help enabling My Media

3. Click the My Media link

4. Click the Add New drop-down button
5. Select YouTube
6. Navigate to the YouTube clip you would like to use. Copy the URL

![YouTube URL](https://www.youtube.com/watch?v=z12lv0j4)

In My Media, paste the YouTube URL into the box provided and select "Preview".

7. In My Media, paste the YouTube URL into the box provided and select "Preview".

**YouTube**

**Video Page Link (or Content ID)**

![Content ID](z12lv0j4)

**Preview**

Note: Only public YouTube videos are supported.

**YouTube URL**

Note: Kaltura will cut off everything except the ending unique video identifier of the URL you pasted.
8. You will see how the YouTube video will appear in My Media.

9. Click on the video to see the details associated with the YouTube video.

Please fill out these details:

- **Name:** UNC Charlotte Astrobotics Competition
- **Description:**
  
  crowdfund.uncc.edu/astrobotics
  
  UNC Charlotte's Astrobotics team is a group of 8 multi-disciplinary engineering students who will be competing in the 2017 NASA Robotic Mining Competition at the Kennedy Space Center. Recently, NASA discovered large amounts of water in the form of ice and hydrated mineral known as basaltic regolith on Mars. NASA's main goal is to capture samples of the basaltic regolith and ice to bring them to a surface spacecraft for further analysis. Due to the activity, NASA has...

- **Tags:**

Complete all the required fields and save the entry before you can select to publish it to categories or channels. Note that the upload process needs to complete successfully for the "Published" option to be enabled.

- **Private:** Media page will be visible to the content owner only.
- **Published:** Media page will be visible to individuals according to entitlements on published destinations.

Save
10. You will see that the **name** and **description** of the video that were used in YouTube have been placed here for your convenience. You can edit these accordingly. Click **Save**.

11. Your changes will be saved. Click **Go To My Media** to see the posted YouTube video.

12. Choose a Canvas item to add this YouTube video. For example go to Canvas Pages, and create a New Page.

13. Add a name and description in the Rich Content Editor of the new page.

14. Click the **Kaltura Media** icon.
15. The **Embed Kaltura Media** window will appear

16. Click **Select > Large**, next to the YouTube video you want inserted

17. The YouTube video will be placed in the Rich Content Editor
18. Scroll down and click **Save and Publish** to save the changes and make the page available to students.

**My Media Options**

Please note that YouTube videos do not have the same options available as media files uploaded to Kaltura. For example, you will not have the features for clipping and trimming. Machine and Human Closed Captions will not be able to be requested. You can add SRT files to the YouTube video. The YouTube video can be published to the Media Gallery.
