What are the default settings for room resources in Google Calendar?

Tell Me

1. Room resource calendars have a few configuration options that are not available to personal calendars.

<table>
<thead>
<tr>
<th>Auto-accept invitations</th>
</tr>
</thead>
<tbody>
<tr>
<td>Calendars for resources like conference rooms can automatically accept invitations from people with whom the calendar is shared when there are no conflicting events.</td>
</tr>
<tr>
<td>Learn more</td>
</tr>
<tr>
<td>- Auto-accept invitations that do not conflict.</td>
</tr>
<tr>
<td>- Automatically add all invitations to this calendar.</td>
</tr>
<tr>
<td>- Do not show invitations.</td>
</tr>
</tbody>
</table>

2. Room resources can:
   1. **Auto-accept invitations that do not conflict** - this only accepts invites when there is no conflict with a previous request.
   2. **Automatically add all invitations to this calendar** - if this setting is chosen, conflicts can happen.
   3. **Do not show invitations** doesn't work for room resources.

3. By default, all room resources will be configured to **Auto-accept invitations that do not conflict**.

4. Room resource permissions will also be migrated.

5. The management of the room will be given to the person who has the highest level of permission for the room resource.
