How do I pay an employee overtime hours in Kronos WFR?

Tell Me

Supervisors have the option to elect to pay overtime when an eligible employee works more than forty (40) hours in a workweek.

The supervisor or timekeeper should perform the steps below at the end of the timesheet period to ensure the employee receives OT pay.

1. Go to Manage Time > Manage Timesheets > By Pay Period.
2. Verify that you are in the correct bi-weekly period by reviewing the dates at the top.

3. Click the edit timesheet icon to open up the timesheet.
4. Review the Summary By Day tab view to determine how many hours need to be paid.

5. Go to the Timesheet tab view and select the day you want to add the OT pay category on.

6. Break out the hours to be paid by clicking the insert button to the far left of the row to add a new line.
   1. Adjust the start/stop times so that the hours reflect the correct amount to be paid that was previously determined on the Summary By Day tab.
   2. Add the pay category by clicking the magnifying glass and selecting the flag next to the corresponding pay out type.

7. Click SAVE on the green action item bar at the top of the screen.
8. Leave a comment on the next screen and click OK (i.e. OT payout to employee).
9. Review the Summary By Day tab for accuracy.
The OTREG_COMP or OTGAP_COMP should have changed to OTREG or OTGAP respectively.
