What kinds of activities involving animals require oversight by the Institutional Animal Care and Use Committee (IACUC)?

**Tell Me**

The following types of activities require IACUC review and approval prior to implementation:

1. A course using vertebrate animals in teaching;
2. Any research, research training, experimentation, biological testing and related activities involving live vertebrate animals and conducted at this Institution, or at another institution as a consequence of the subcontracting or sub-granting of a Public Health Service (PHS) conducted or supported activity by this Institution;
3. Any research involving intact animal cadavers (i.e. whole dead body of a warm-blooded animal) from an extramural (non-UNC Charlotte) source;
4. Field studies involving trapping, capturing, physical/chemical restraint, and/or invasive procedures.

**Info**

For additional questions or clarification contact the IACUC Compliance Program Manager at uncc-iacuc@uncc.edu or at 704-687-1872.
