How can students tell if their Canvas course is available?

Tell Me

You can check your enrollment in a Canvas course and also see if your instructor has released content to students.

1. In the left navigation, click the Courses icon.
2. Click the All Courses link.

3. Find your course in the list. If you see the course in the list, you are enrolled in it with the access listed in the Enrolled as column.

4. If the Publish option is set to No, students cannot access the course. Contact your instructor about when the course will be available to students.
