How do I get the 90-day password policy removed if I am no longer involved with PCI activities?

Tell Me

1. Employees involved with PCI (Payment Card Industry) activities are required to maintain a 90-day password expiration policy.
2. Employees no longer involved with PCI may request removal of the 90-day password expiration policy by completing this form.

The eCommerce Office reviews all requests. Approved removals will be processed at the end of the month in which the request was submitted.
