How can a manager access the New Employee Onboarding course in Canvas to monitor the employee's progress?

Tell Me

When the New Employee Onboarding course in Canvas is launched in June 2018, the new employee's manager will automatically be enrolled as a course Observer. Observers have limited permissions that allow them to see what is going on in a course without interrupting the flow of daily course communication. Like students, Observers cannot view a course until it is published and the course has started. Click here for more information about the Canvas Observer role and access.
