How do I configure Outlook email client in IMAP mode to work with Gmail in Windows?

Show Me

Tell Me

IT Support

The University's ITS Department provides limited technical support for those electing to use an IMAP client to retrieve Gmail. Support includes best effort IT phone support (no ticket escalation) and the FAQs shown. Individual colleges/departments may provide additional support. The College of Liberal Arts & Sciences (CLAS) IT does not support IMAP email clients.

Tip

A change in email can be difficult, especially at first. Please explore and use the features of Gmail exclusively for at least 30 days before considering going back to a desktop email client. Thunderbird, Outlook and Apple Mail do not offer the full search, integration and ease of use found by using a supported web browser with Google Gmail.

Outlook 2013

1. Enable IMAP on your Gmail account
2. Open Outlook 2013
3. Click the File menu
   - Click on Manual setup or additional server types

Outlook 2016

1. Enable IMAP on your Gmail account
2. Open Outlook 2016
3. Click Next

Welcome to Outlook 2016

Outlook helps you manage your life with powerful tools for calendar, contacts, and tasks.

Let's get started. In the next few steps, we'll add your ema
4. When prompted to add an email account, select Yes and click Next.

5. Your name and email address will appear. Select Manual setup and click Next.

6. Select the Change account settings option and click Next.

7. Click IMAP
8. Click Next
9. Enter Your Name
10. Enter Email Address
11. Under Server Information, Account Type click on the drop down arrow and choose IMAP
12. Incoming mail server: imap.gmail.com
13. Outgoing mail server (SMTP): smtp.gmail.com
14. Enter your full email address (user@uncc.edu)
15. Enter your NinerNET password

16. Click on More Settings
17. Click on Outgoing server
18. Check **My outgoing server (SMTP) requires authentication**

19. Choose **Use same settings as my incoming mail server**

20. Click on **Advanced**

21. **Incoming server (IMAP):** 993

22. **Use the following type of encrypted connection:** SSL

23. **Outgoing Server (SMTP):** 465 or 587

24. **Use the following type of encrypted connection:** SSL

25. Click **OK**

26. Click **Next**

27. Click **Finish**

   a. Your folders and email will start populating. Depending on the size of the email box, this may take some time

7. **Select IMAP and click Next**

8. Enter **Your Name**

9. Enter **Email Address**

10. Under **Server Information**, **Account Type** click on the drop down arrow and choose **IMAP**

11. **Incoming mail server:** imap.gmail.com

12. **Outgoing mail server (SMTP):** smtp.gmail.com

13. Enter your full email address (user@uncc.edu)

14. Enter your NinerNET password

15. Click on **More Settings**

16. Click on **Outgoing server**

17. Check **My outgoing server (SMTP) requires authentication**

18. Choose **Use same settings as my incoming mail server**

19. Click on **Advanced**
20. Incoming server (IMAP): 993
21. Use the following type of encrypted connection: SSL
22. Outgoing Server (SMTP): 465 or 587
23. Use the following type of encrypted connection: SSL
24. Click OK
25. Click Next
26. You may get an error message. Check your email and click the link in the message from Google to allow access to less secure apps
27. Click Turn on and return to Outlook and click OK on the error message
28. Enter your full email address and Ninernet password and click OK
29. Click Close when shown test email confirmation

Test Account Settings
Congratulations! All tests completed successfully. Click Close to continue.
