What kinds of activities involving animals require oversight by the Institutional Animal Care and Use Committee (IACUC)?

Tell Me

The following types of activities require IACUC review and approval prior to implementation:

1. A course using vertebrate animals in teaching;
2. Any research, research training, experimentation, biological testing and related activities involving live vertebrate animals and conducted at this Institution, or at another institution as a consequence of the subcontracting or sub-granting of a Public Health Service (PHS) conducted or supported activity by this Institution;
3. Any research involving intact animal cadavers (i.e. whole dead body of a warm-blooded animal) from an extramural (non-UNC Charlotte) source;
4. Field studies involving trapping, capturing, physical/chemical restraint, and/or invasive procedures.
