How can I set up and ask different questions to different classes and/or sections?

Tell Me

If you plan on reusing questions because you teach multiple class sections, or for any other circumstance, there are two methods of doing so:

1. METHOD 1: Archiving
   a. Archive your poll to save and clear your class/section's data before reuse

2. METHOD 2: Duplicating
   a. Login to www.polleverywhere.com
   b. If your polls are not already in a group, group them by selecting the polls of choice

   ![Attendance]

   ![mood?]

   c. Click the New Group button on the upper bar

   ![New group][Ungroup][Download]

   d. The New Group button will allow you to name the group to differentiate it from others

   ![Create new group]

   2 selected activities will be moved into this group.

   ![Group name]

   Cancel [Create group]

e. Once the group is created, duplicate it by hovering to the right of the group bar and clicking Duplicate

   ![Share][Convert to survey][Add activity][Rename][Duplicate]
f. The **Duplicate** will appear directly above the **original group**

- Groups can be renamed by hovering to the right of the group bar and clicking **Rename**

  - Note that deleting duplicate groups will also delete the original group also
