How do I access the DTN?

Tell Me

1. Users must have a URC cluster account. They can then request access to the DTN by submitting a ticket to URC.
2. The DTN is accessed interactively via Secure Shell (SSH) to dtn.uncc.edu. Linux and Mac machines have the ssh command included. There are a variety of clients available for Windows-based machines such as putty, etc.
3. Login with your cluster credentials to authenticate your SSH connection. You will also be required to authenticate via DUO.
