How do I allow Multiple Attempts for In-Video Kaltura Quizzes in Canvas?

Tell Me

1. Login to Canvas and access a course
2. Click on My Media
3. Click Add New
4. Click Video Quiz
5. The Quiz Editor will appear. At this point, Kaltura has taken a copy of your original video to create an in-video quiz (IVQ).

6. You can now add the quiz question types to this video.

7. Within the Quiz settings, click the **Scores** option to expand the settings.
8. The **Allow Multiple Attempts** will appear

9. You can choose between 2 and 100 attempts for students to retake the quiz.

10. The **Quiz Score to Keep** is comprised of 6 different attempt options.
11. You can choose to not show scores, show scores and to include answers.

12. To see the analytics for that in-video quiz (IVQ), click **Actions**

13. Click **Analytics**

14. Click the **Quiz users** tab to view the data table
15. As part of the update for multiple attempts, the analytics data table will have three (3) new columns:

- **Attempts** - related to the Multiple Attempts features.
- **Final Score** - displays the final grade for each user.
- **Actions** - currently only one action is available. You now can remove a user’s attempt. This will remove the user’s attempt completely and allow the user to take the quiz again.

16. You can use **Canvas Assignments** to pull In-Video Quiz grades from Kaltura into Canvas gradebook. As student retake the quiz their Canvas grades will be updated accordingly.
