What other data transfer methods are available via the DTN?

Tell Me

1. The DTN is also available as a Globus Endpoint. The URC DTN endpoint is "UNCC-URC-DTN" and can be accessed using your NinerNet credentials.
2. To use this service, you must send a ticket to urc-support requesting access.
3. IMPORTANT: Before sending the request, you need to obtain some information to put in the request:
   b. Choose "University of North Carolina at Charlotte as your Identity Provider.
   c. Log in using your Ninernet login and password.
   d. At the top of the screen you will see a line labeled: Certificate Subject
   e. Copy the entire line and paste it into your request.
   f. You do not need to generate a new certificate.
   g. Log out.
4. For more information, visit https://www.cilogon.org/faq and https://docs.globus.org/how-to.
