What is Flipgrid?

Tell Me

Flipgrid is a video discussion platform that makes teaching and learning more personal, fun, and engaging to your students. Flipgrid is now a part of Microsoft, and just like Office 365, Flipgrid is now free for all educators and students. Whether students are working on personalized goals or differentiated activities to foster growth, as faculty you can provide opportunities for students to capture understanding of the course material and allow their thinking to be visible using Flipgrid.

FAQs have been created to help you navigate Flipgrid. Below are the current options:
