Can I use Amazon's AWS Educate for group projects and pool credits together?

Tell Me

In order to ensure AWS Educate meets your needs, please consult with Jesse Beauman, Assistant Vice Chancellor For Enterprise Infrastructure, prior to signing up for AWS Educate. ITS wants to ensure appropriate design considerations are taken into account.

In some cases, Amazon is willing to work with faculty members and students to renew credits early. Please contact the IT Service Desk for information.

1. AWS Educate can be used for group projects by linking student accounts via consolidated billing. This means you can pool credits for a project.
2. Your faculty member will need to reach out to Amazon for assistance with pooling credits.
