How can I get removed from the ResearchStudyAnnouncement-group emails?

Tell Me

1. Unlike other Google Groups, you will not be able to permanently remove yourself from the ResearchStudyAnnouncement-group and ResearchStudyAnnouncement2-group
   a. The membership of these groups is based on research study criteria that is approved by the Institutional Review Board
   b. Group membership changes frequently as studies are approved - the group is purged of members as different studies utilize the group
   c. You may be included in one study and not be included in the next
   d. There is not currently a mechanism in place that would exclude a person from being included in a research study list

   Students have the option to withhold "directory information". Opting to withhold that information will exclude you from inclusion in research studies - see this [webform](#) or contact the [Office of the Registrar](#) for more information about this option.
