How do I transfer data from the Internet to my storage once I am logged in?

Tell Me

1. Users can use the following Linux commands (interactively) to connect to remote sites and transfer data to your storage areas:
   - curl (HTTPS)
   - wget (HTTP/HTTPS)
   - rsync
   - git (HTTP/HTTPS)
   - ftp

2. See the appropriate documentation and/or manual pages for the use of these commands.
