How long does it take for a project idea to be approved for implementation?

Tell Me

1. It varies depending on the type of project.
2. Transform projects need a macro and a micro assessment done so the process typically takes longer.
3. Run projects only need a micro assessment so the process may be quicker.
4. Because the process is new, as of fall 2018, it may take as long as 6 months to do the assessments for transform projects.
5. Divisional prioritization can also impact the time it takes to do the assessments.
6. See this website for a short video about the different types of projects.
