What is DocuSign?

Tell Me

All faculty, staff and students have view and signature access to DocuSign at docsign.uncc.edu using their standard NinerNet email and Nine rNet credentials.

1. DocuSign is a nationally recognized leader in the field of eSignature providers.
2. They provide a hosted solution with a simple to use interface for collecting eSignatures, as part of a form or as a standalone feature.
3. Multiple methods of identity assurance are available, from 2-factor to Knowledge Based Authentication, and can be configured differently for each use case.
4. The university has elected to use DocuSign primarily for collection of signatures from external parties.

University alias emails cannot be used at this time. Form links and management of DocuSign can be performed using any browser.
