

# How do I connect a laptop to the smart podium using VGA?

Tell Me

1. Locate the VGA cable in the cable cubby on the podium.

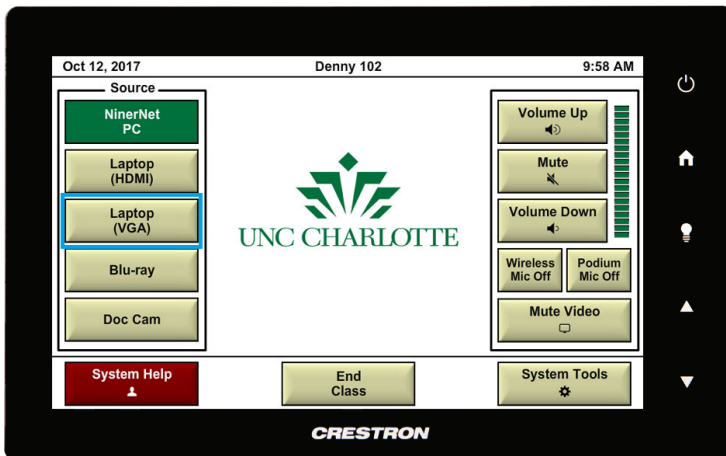

2. Connect the VGA cable to the VGA port on your laptop and secure using the holding post screws.

You may need an adapter to connect your laptop to the podium. You must provide your own adapter. Classroom Support does not provide laptop adapters.

3. On the touch panel, select **Laptop (VGA)** from the source list on the left side of the screen.

4. To output laptop audio through the classroom speakers, connect your laptop using the 1/8" audio cable
