

# How do I manually power the projector on or off?

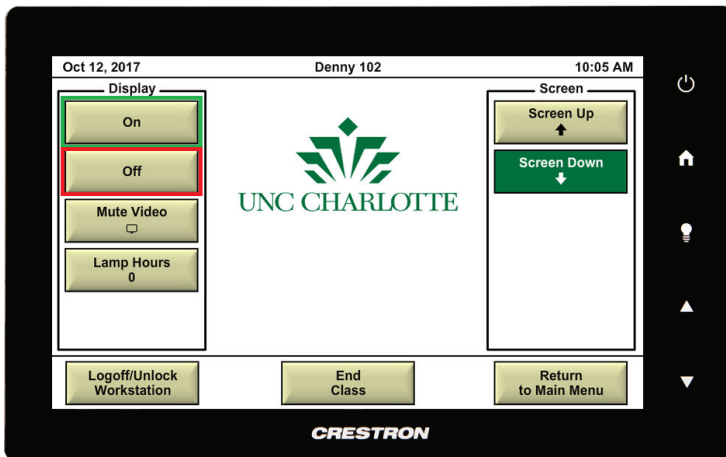

## Tell Me

The projector can be powered on or off manually through the use of touch panel controls.

1. On the home page of the touch panel, press the **System Tools** button in the bottom right corner.

2. On the System Tools page there are Display controls on the left side of the screen. To turn the projector on, press the **On** button. To turn the projector off, press the **Off** button.

The On/Off controls are not instant. Please allow 5 to 10 seconds for the projector to react when pressing the On/Off button.
